She practices her Art of Beauty through a unique alchemy of disciplines fusing lapidary arts, metal work, leatherwork, painting and sculpting. For her, Art is more than just something you do or the medium you use. It is a celebration of our fundamental uniqueness: an ode to life and aesthetics, an amazing channel leading to a privileged communication with the Universe and people.

Cérka is a self-taught international artist who dedicates her life focusing and sharing her sense of Beauty. Curious minded, inspiration comes from both Nature and giving importance to all forms of matter, medias and modes of expression with nobility, love and profound respect. Everything matters; everything is a message for each of us in this very special moment. Now. The greatest beauty is to feel that deep connection within.
